Professional Experience

Jun'25 - Sep'25 **MODERN AGRICULTURE TECHNOLOGY INNOVATION CENTER (MATIC)** **Chennai**
Agentic AI Developer Intern | MADeIT-Incubated Startup at IIITDM Kancheepuram | Full-Time, Hybrid

- Identified **fragmented, manual workflows** across startup operations by **working directly with founders** to uncover root causes, then prioritized the **highest-impact automation opportunities**.
- Translated ambiguous operational problems into structured **product requirements**, and designed agentic AI workflows using **LLMs, LangGraph, LangChain** and full-stack technologies.
- Built and scaled **Assist Pro**, an AI-powered automation platform, reducing manual effort by **over 75%** across startup operations.

Projects

GenAI Task Management & Expense Analytics Platform
Built AI-powered apps for task assignment, workflow automation, approvals, **role-based access control** and real-time monitoring, with a **conversational AI assistant** and an **OCR invoice-processing system** that generates income, expense, profit/loss and vendor dashboards.
Python, LLM, Prompt Engineering, REST API, SQL, OCR, HTML

IoT Smart Agriculture System
Raspberry Pi platform monitoring soil moisture, temperature, humidity, rainfall, water level, NPK nutrients and light intensity, with cloud dashboards, **automated irrigation control** and real-time alerts for efficient water usage.
Python, REST API, Cloud

OmniRoot Agentic AI
AI-assisted AIOps platform for incident detection, root-cause analysis, API debugging, cloud cost and security monitoring, built with **5 specialized AI agents, 8 intelligence layers and an 18-node workflow**.
OpenAI API, n8n, SQL, Docker (Live Demo | GitHub)

AtomSphere Nexus
Goal Intelligence & Performance Tracking SaaS platform. (Live Demo | GitHub)

Leadership

YANTRIKSHA X HUB, VEL TECH UNIVERSITY
Chief of Industry, Alumni & Partnership and Registration | 800+ students
